CRC 2022 Author and Submission Guidelines

Overview

Thank you for considering the Construction Research Congress 2022 for presenting and publishing your research.

We welcome papers related to construction in any of the following areas:

- Infrastructure Systems, Sustainability and Resilience
- Computer Applications and Simulation
- Advanced Technologies and Data Analytics
- Automation in Construction
- Engineering and Materials Design, Quality, and Value Management
- Project and Organizational Management and Planning
- Construction Scheduling, Estimating, Economics, and Controls
- Contracting, Project Delivery, and Legal Issues
- Construction Education
- Health, Safety, and Workforce Issues

Publication & Author Registration

All accepted papers will be published in the conference proceedings. To be published, each paper must comply with all formatting requirements and have at least one author registered for attendance at the conference.

Each registration includes two accepted papers for presentation and publication.

Formatting

All manuscripts submitted must comply with the ASCE Conference Proceedings formatting requirements. A paper template is provided on the paper submission site, and authors **are strongly encouraged** to utilize this template to prepare their papers.

Referencing

Papers submitted to the conference should follow the "author-date" convention for in-text citations. A references section must be included and follow formatting conventions outlined on pages 35-39 of ASCE guidelines:
