

ASCE
JOURNAL OF LEGAL AFFAIRS AND DISPUTE RESOLUTION IN
ENGINEERING AND CONSTRUCTION

REFERENCING GUIDELINES

The *Journal of Legal Affairs and Dispute Resolution in Engineering and Construction* uses the *Chicago Manual of Style*, and therefore uses both endnotes and works cited. Endnotes can add a new dimension to the study and can include useful comments that place the arguments in context. Authors are strongly encouraged to use endnotes to enhance their articles.

REFERENCES

Citations in this journal are divided into the following FOUR categories, and are printed under the heading "References" in this order: (1) Endnotes, (2) List of Cases, (3) List of Acts and Statutes, and (4) Works Cited. Authors need not use all of these categories, though endnotes are strongly encouraged, and a List of Cases and Works Cited are expected.

Endnotes. Endnotes may include commentary and other remarks, as shown in the following example:

⁷ Idle capacity; because of delay, staff are not fully engaged in productive work for the delayed project during the delay period.

Repeated references to the same case may be stated in the text by using an endnote number. In the endnote, the author must list the case, as shown in the following:

²⁷ *Excavation-Construction, Inc., v. United States*, op cit.

List of Cases. When plaintiff vs. defendant information is mentioned in text, use italics, as shown in the following examples:

Excavation-Construction, Inc., v. United States
Community Heating & Plumbing Co., Inc., v. Kelso

The list of cases should include the full citation at the end of the paper:

Excavation-Construction, Inc., v. United States, ENG BCA 3851 (1984)
Community Heating & Plumbing Co., Inc., v. Kelso, 987 F.2d 1575 (Fed. Cir. 1993)

List of Statutes. The list of statutes gives specific state or federal statutes pertaining to legislation, as shown in the following:

Americans with Disabilities Act of 1990, Pub. L. No. 101-336, § 2, 104 Stat. 328 (1991).

Works Cited. For other citations and works cited, the *Journal of Legal Affairs and Dispute Resolution in Engineering and Construction* uses the same author-date format found in other ASCE journals. See Chapter 5 of the ASCE Author Guide (<http://ascelibrary.org/doi/book/10.1061/9780784479018>) for details.
